

2nd ENTREPRENEURSHIP & INNOVATION CONFERENCE @lborolondon 15th and 16th June 2017

The Glendonbrook Institute for Enterprise Development, and Loughborough University London are hosting their second Entrepreneurship and Innovation Conference to which it invites scholars as presenters and participants.

This conference represents a great opportunity to showcase research, receive useful feedback, enter into discussions with fellow scholars, form collaborations, and meet like-minded colleagues in a friendly and supportive environment.

LU London is based inside the Queen Elizabeth Olympic Park, a bustling and easy-to-get-to location. Our School is a smart, modern facility with a lovely Harvard-style lecture theatre which we shall use for the conference. The Olympic Park should be awash with flowers in June - worth visiting in its own right.

The conference theme is entrepreneurship and innovation – contributions tightly or more loosely connected to the theme are invited. These can be PhD findings, works-in-progress, or (almost) final versions of articles ready for submission to journals.

Conference Chair: Dr Louise Scholes
Loughborough University, London

Keynote Speaker: [Professor Dimo Dimov](#)
School of Management, University of Bath

Keynote Speaker: [Lord Karan Bilimoria](#)
Crossbench Peer, Chairman and Founder of
Cobra Beer
